The latest news from Egypt is as follows: The British, having arrived at Souakim, called on the Madhites to evacuate the city (???) They refused, and decided to fight, and the battle must now be going on. Chinese Gordon's attempt at conciliation failed.

[There is confusion in this telegram. There is no news of the Mahdi, having taken Souakim, quite the contrary—Ed.]

THE GRAN CHACO.

An Englishman who has just arrived back from Formosa, in the Gran Chaco, has favoured us with samples of cotton that grows in the greatest luxuriance up there, and which, although it seems rather short in the staple, would be turned to some use if shipped to Manchester. His description of Formosa is most interesting. He says that most of the colonists grow sugarcane and that the crop is splendid, but that, for the want of a sugar-mill, they only get aguardiente from the cane.

The town of Formosa is a most rising place—new brick houses on all sides. streets laid out, and the principal people in the colony are Paraguayans. Colonel Fotheringham is esteemed by all, and is the most pushing, active man in the place. Since he has taken office the town has been wonderfully improved, and new chacras are stretching out on all sides. The chacareros, however, have hard work enough to clear their lands of timber. The fertility of the soil is simply indescribable. Italians who arrived up there a couple of years ago are to-day worth ten thousand dollars gold; and there is no difficulty for new settlers to obtain from the Governor chacras and farms. The heavy expense is clearing and ploughing up the land.

The steamers stop at Formosa, and they also stop at a new Italian colony some leagues this side of Formosa, where the people are so badly treated that they are all leaving the colony; but the "concessionaire" in this city keeps sending up fresh batches of poor people, who have to undergo great hardships.

There are no estancias near Formosa, according to our friend's statement, yet there is always plenty of beef in the town. The lands given by the Governor of Formosa are only for chacras and never for estancias. It is probable, now that so much sugar-cane is grown up there, some parties will put up a good sugar-mill, which is very much wanted.

At the Resistencia Colony, which is much lower down in the Chaco and is in front of Corrientes, they now grow a very large quantity of sugar-cane, and some "trapiches" have been put up; but a sugar-mill, if erected there, would also pay well, as the colonists all grow sugar, and the cane of a single square is sufficient to keep a family for a whole year.

It is pleasant to see Englishmen pushing their way into the Gran Chaco, and we wish them the very best success.

Our correspondent from Formosa has just purchased about 400 squares, which is a very large area, and this he intends to plough up this season and put under sugar-cane—a very splendid enterprise, as, from all we can gather, there is no crop in the country pays as well as the sugar-cane in the Gran Chaco.

THE SOUDAN ATROCITIES.

The news from the Soudan received yesterday is sufficiently horrifying to make the blood curdle, one's hair stand on end, and the voice cling to the jaws. Nothing that has ever marked the sanguinary history of South America can rival the bloody barbarity of a people known in London as "Unified Egyptians," and all the glory and enlightenment of the 19th century is wiped out in a day by the very people who may claim to be the parents of our race, our science and our civilization.

The disaster of Sinkat and the capture of that doomed town by the False Prophet's followers, with the Koran in one hand and the scimitar in the other, revive the bloody records of Cromwell in Ireland, with the Bible in one hand and the sword in the other. Have we advanced? Have we improved one iota? Let the Havas telegrams from Europe answer. Verily, we must bow our head and accept the fact that war is the natural state of man!

Four thousand men "degollados"!!! This even eclipses Facundo Quiroga; and to perpetrate so awful, so hellish an atrocity, the human butchers invoke their religion and kneel to their prayers with the False Prophet preaching his text from the Koran, and his praying congregation reeking with the blood of **4,000** of their fellow-men—not shot down, not blown to atoms by Krupp guns, but lying in heaps, like butchered sheep, with their throats all cut.

The very pen resists to describe so infamous a work. Soudan is a terrific lesson to all Europe. Soudan is Mahomet revived; and we may all yet live to see the cross pitched into the Mediterranean and the crescent hoisted in its stead.

The ferocity of the Mahdi's proselytes is but equalled by their religious fanaticism. At Sinkat, the sack, havoc and carnage was truly awful. The place resisted as long as it could; and when the Commander found it impossible to hold out any longer, he spiked the guns, blew up the magazines and forts, and then, sword in hand, and with 600 men the Governor of the town gave him, made a desperate sortie, determined to cut their way through the canting, praying, hypocritical hordes of the False Prophet, that swarmed as numerous as ants around the place. The rest is soon told: of the brave Commander and his army NOT A MAN ESCAPED. Every soul perished—and perished, as we have stated, at the hands of these fanatics, who outraged every corpse and cut every throat.

Living as we do in a remote corner of South America, up to our eyes in our own affairs, busy with our everyday occupations, few of us stop to think of the import of a telegram, or a newspaper local event, but the news is so staggering, so horrifying, that it shakes one's faith in our very race, and the intellect reels at the contemplation of crimes that are all the more damnable, all the more humiliating, since perpetrated in the very name of Religion.

The correspondent of the London *Standard*, telegraphing from Cairo on the 12th ult. says:—"No words can give any idea of the feeling of grief which the news of the fate of the garrison of Sinkat has excited among all classes, and deep as was the impression produced by the rout of General Baker's army, it was as nothing to the sorrow now excited. Among Englishmen the feeling of humiliation and shame, that these gallant men should have issued out and died almost within sight of English ships, when they could have been saved by a word from the English Government two months since, is overwhelming and universal. Never do I remember anything approaching the outburst of feeling, which even surpasses that which the news of the massacre of Cawnpore excited, for then, deep as was the grief, and horror of Englishmen, they were, at least, free from shame. There is no further news of General Gordon. It is now definitely settled that the Egyptian troops embark on Saturday at Hoolak for Assouan. English officers will accompany them. They will at first be encamped in tents, but will be hutted as soon as possible. Meanwhile, in view of the probable despatch of English troops, Major Sandwith and Colonel Wilkinson, the senior commissariat officer, leave to-morrow for Siout to make arrangements in case of that contingency.

The largest body of fresh water on the globe is Lake Superior—400 miles long, 160 miles wide at its greatest breadth, and having an area of 32,000 square miles. Its mean depth is said to be about 160, and its greatest depth about 200 fathoms. Its surface is about 635 feet above the level of the sea.

THE MEAT CARGO.

SPLENDID SUCCESS.

The mails by the Cotopaxi bring the following splendid advices respecting the Campana Mutton Cargo.

London, Feb. 16th 1884.

"Little has been heard of the movements of the River Plate Fresh Meat Company until within the last week or two, when the arrival of 7,000 frozen sheep by the steamer Meath, were exposed for sale in the Central Market, Farringdon-street, and one half, we understand, disposed of at fair prices. The meat was in fine condition, and will be better known shortly. Another cargo is expected in about a month. The experiment will be watched with interest by the public on this side, as well as by sheepfarmers in the Plate, who, in the event of a successful issue, can supply any quantity. On the 12th inst., at the invitation of the directors, a number of gentlemen connected with South America, including Señor Garcia, the Minister of the Argentine Confederation, and Colonel Carve, Minister for Uruguay, partook of a luncheon at their offices in Finsbury-circus, when samples of the mutton brought over by the company were served up in a variety of dishes. The mutton, which is rather small, was pronounced to be very similar in all respects to that which has already been brought over from Australia and New Zealand by the same refrigerating machinery—that of Messrs. Haslam and Co., of Derby, and which by this time is well known in the London market. This first consignment from South America consists of 300 tons, and has been brought in one of Messrs. Houlder Brothers' steamers, specially fitted with the freezing machinery. The chairman of the company, Mr. Drabble, in proposing the health of the foreign ministers present, pointed out with regard to the sources of meat supply which they were opening up that there were in the province of B-Ayres alone something like 150,000,000 of acres of pasture lands, with nearly 70,000,000 of sheep, while in the whole of the Arg Confederation there were upwards of 85,000,000 sheep. This was exclusive of Uruguay, where there are 15,000,000 of sheep. The horned cattle in the two countries besides exceeded 22,000,000. Señor Garcia, on behalf of his fellow-countrymen, acknowledged their indebtedness to English capitalists, instancing the construction of the railways in the Argentine Confederation, and expressing his gratification that confidence was thus shown in them. It is understood that arrangements have been made by which a large consignment of the frozen meat will be received in London every month.

THE LATE DR. SCRIVENER.

The death of this much esteemed English gentleman will not only throw some of the first families of this city into mourning, but his loss will be felt by the profession of which he was such a distinguished member, and by the whole foreign public of the Plate, by whom he was so much esteemed and respected.

Dr. Scrivener passed the early part of his life in Bolivia and Peru, and knew many of the distinguished men who played their part in liberation of those countries. He was an intimate friend of Bolivar, and some twenty two years ago, in the columns of this paper, he published a series of letters on Bolivia that attracted great notice. In the possession of an independent fortune, he only followed his profession in this country as an amusement, and many of our readers will remember his very able papers, published on the yellow fever epidemic in this city in 1871, and which papers were republished by all the medical press of Europe. Many years ago he left this country with his family for Paris, where he resided some 10 or 12 years, superintending the education of his charming and accomplished daughter. Since his return to the Plate he has been rather feeble and in poor health. He filled the post of Acting British Consul at one time during Mr. Parish's absence, and although we may say all his life in South America, he was still in feeling, instinct and attachment a thorough, whole-souled Englishman. We tender to his family every expression of sympathy at their irreparable loss.—R.I.P.

LATEST INTELLIGENCE.

Ayoub Khan has arrived at Meshed. The Governor of Khurassan has been instructed to inform him that the Shah desired he should remain for the present there.

A Pietermaritzburg telegram of the 12th inst. states that rumours having been raised that Cetewayo died of poisoning, a post-mortem examination was ordered, though the friends of the King have a Zulu's natural aversion to such treatment of a corpse.

A Port Said telegram of February 12th states that the Orontes has entered the Canal, bound for Suakim, with 362 Marines on board, under Major Colwell.

Her Majesty's ships Monarch, Orontes and Hecla will leave Port Said immediately for Suakim, with British reinforcements for the garrison of that place.

The steamer Sirocco, from Galveston, which has arrived in the Mersey, landed the mate and five seamen of the colonial bark Champion, of Yarmouth, N.S., bound from Baltimore to Hamburg, laden with coal and oil, which vessel capsized on the 28th January. The master and eleven men were drowned. The others were rescued on the 31st January by the Sirocco.

The *Standard* says that the Prime Minister seemed to feel greatly the strain of his long speech in the course of the Debate of the night of the 12th. Immediately after its delivery he rose and left the House.

Mr. Bradlaugh's application for the Chiltern Hundreds created surprise among his own friends and supporters, and they are unable to explain the grounds which have induced him to take this course. It is believed that the Attorney General will still prosecute for the recovery of the penalties for voting; but, of course, the question has now little practical interest.

It is reported says the *Standard*, that the Irish Party intend to oppose the vote of thanks which it is usual to give to the Speaker on his retirement from the Chair.

The receipts on account of Revenue from the 1st April, 1883, when there was a balance of £6,972,730, to February 9, 1884, were £70,055,711, against £72,990,392, in the corresponding period of the preceding financial year, which began with a balance of £5,976,585. The net expenditure was £72,685,290, against £75,342,624, to the same date in the previous year. The Treasury balances on Feb. 9 amounted to £6,719,401, and at the same date in 1883 to £4,548,880.

The New Zealand Shipping Company's steamer Tongariro, which recently arrived at Plymouth, made the passage from New Zealand in 38 days 3 hours' steaming, thus eclipsing the recent successful run homeward of the same company's steamer Ionic, which was then the fastest on record. The outward passage of the Tongariro was made viá the Cape of Good Hope in 40 days 9 hours' actual steaming, and the voyage round the world, excluding detention at ports of call and in the colony has been accomplished in 78 days 12 hours.

A telegram from Nismes of the 12th inst. says:—Miss Booth is now in the south of France, Nismes being her headquarters, where she visits the district around. Last Sunday evening a great meeting was held at Nismes by Miss Booth in a hall hired by the Salvation Army for nine years. Outside the crowd made a great disturbance and tried to break open the doors and window shutters, but the police dispersed them, and the proceedings passed off in a tolerably quiet manner.

A first-class torpedo boat, built for the Russian Government for experimental purposes by a French firm, has given so little satisfaction that the boat has been returned to the builders.

At the settlement of the Stock Exchange on the 12th no failures were reported. Rates of continuation were slightly stiffer for home railway stocks, but prices improved at the close, and foreign Government stocks were also higher, the rise all round for the day ranging from ½ to 1 per cent. Backwardations were paid in several instances. Grand Trunk 2nd Preference rose 1¼ per cent. Mexican Railway Ordinary fell to 47, ½. Consols advanced to 100⅞, 101 for money, and to 101⅛. 3-16 for the account. £81,000 in gold was sent into the Bank from abroad. Rates of discount in the open market declined, three months bills 3 5-16 per cent.

LATEST TELEGRAMS.

Saigon, 14.—The laying of the Submarine Telegraphic Cable between this city and Tonquin was completed to-day and it works perfectly.

London, 14.—By telegraph from India we hear that the Turcoman delegates of Merv have had a very large reunion, in which they accorded unconditional submission to Russia. This news is of great importance, because Merv being situated on the Afghanistan frontier, it may, owing to its geographical position, be a menace by Russia to British rule in India.

London, 15.—Sir Charles Dilke, speaking in the Lower House on the Egyptian question, said that General Gordon's despatches were fairly reassuring to judge by the contents of them. He then explained the plan the English Government proposes to follow in the matter of the Soudan. The Government of Egypt over the Soudan will be at once supressed, which he added had beeen always a real scourge to the country. The English Government propose to preserve a line of fortified ports on the Red Sea to prevent the Slave Trade. In Birmingham, Liverpool and Rochdale popular meetings have been held to treat of Egyptian affairs in which the vote of censure has been approved of. In Edinburgh, where the Government can count a very large number of adherents, a meeting has been held which adopted a vote of confidence in the Ministry. The *Daily Telegraph* says that shortly Parliament will be asked for a credit of £25,000 to meet the expenses connected with the Soudan affair. The *Daily News* says that the English expedition for the relief of Tokar cannot leave Suakim before, at the earliest, the 2nd of March.

Paris, 12.

The despatch of Monseigneur Pugignier, Bishop of Tonquin, which was published yesterday and referred to a certain massacre of Christians, though true, does not allude to such a recent date as was supposed at first. The massacre of Christians occurred not in the Delta of the Red River, but in province of Phanoa between Hué and the Southern branch of the Delta. No assassination took place in the part occupied by the French.

Suakim, 12.

The news of the fall of Sinkat and the heroic death of its commander and defenders is confirmed. None escaped. Sinkat was entered by the rebels with fire and sword.

Alexander, 12.—It is said here that an agreement has been made between England, Egypt and Abyssinia, by which on ceding to the last-named country a port on the Red Sea (probably Bula), south of Mansourah, she will assist in putting down the rebellion in Eastern Soudan.

Vienna, 12.—The negotiations between the Sublime Porte and England on the Soudan question have not advanced an atom. Turkey, although she does not renounce her rights of sovereignty over Egypt and the Soudan, is disposed to intervene with a military force to assist England.

The following telegram was received last night, dated London, 15, 6.25 a.m: "Insurgents dispersing in the vicinity of Suakim. The British troops began embarking at Suez, the last transport with General Graham leaves on Monday. General Gordon started for Khartoum and had a very satisfactory interview with the Sheikhs. The British Government has refused the request of General Wood for co-operation with the Egyptian Army in the Tokar expeditions."

London, 11—The *Daily News* publishes a despatch saying that the English representative in Egypt is preparing for the return to power of Riaz Pasha. The Port is desirous of sending a ship with troops to Arabia on account of the great agitation that reigns in that country, the fanaticism of the Mussulmans being aroused. The news of an insurrection in Candia against the Turks has caused some sensation in Athens, as the people of Candia have many sympathies in common with the Greeks and other Eastern Christians.

Paris, 12.—The new Spanish Ambassador, Don Manuel Silvela, arrived to-day. The subscription for the loan closed to-day. Enough money was subscribed in Paris alone for it, and in the Provinces more than double the amount asked for was obtained.

London, 12.—The *Times* says that the liberal party in order to give unity to its conduct, agreed in last night's session of the House of Commons to draw up a memorandum, signed by the Liberal members in the House. In this memorandum, the Cabinet is invited to declare that it assumes the responsibility of the Egyptian Question, that it will put an end to the disorders that are making the English name discreditable, and that it will display the utmost energy in order to impart confidence to Europe and Egypt. The *Standard* of to-day says that General Gordon found the country quiter than he expected in the districts that he has crossed, and is confident of the success of his journey.

THE RELIEF OF TOKAR.

London, Feb. 16th.

Souakim, Friday, 7.15 p.m.

Spies brought word to-day that only fifty women and two Egyptian secretaries are known to have escaped the massacre at Sincat. It is supposed that the others were killed, as those of the Hadendowa tribes investing Sincat are notorious above all others for their ferocity. Different accounts number the women in Sincat at but 240. That is supposed to be the nearest estimate of the truth. It is unsafe implicitly to trust the reports of spies. For instance, in spite of the news received yesterday that Kassala is still invested, an Indian merchant here, who recently stopped his transactions with that place, has received instructions from his agents there to resume business along the route from Massowah.

Two hundred Egyptian gendarmes, under Colonel Harrington, leave for Suez to-morrow. It is possible that the Turkish cavalry may be sent back because their horses are required for the 10th Hussars, who are soon expected. Some hundreds of blacks, available as the nucleus of a new native force, are to be organized by Captain Pigott, who has arrived from Egypt. The Soudani blacks are the only trustworthy material for a native army of occupation.

Intelligent natives say that the first contact of Osman Digna's followers with the English will probably be the beginning of the collapse of his authority. They declare that he keeps his followers together only by religious excitement and belief in his miraculous power to nullify artillery, but the Egyptians are bad shots, and every bullet has its billet except the Khedive's.

Souakim, Friday, 9.30 p.m.

The 10th Hussars left Aden this afternoon. They will arrive on Monday with 400 marines and blue-jackets.

Completely encamped and in safety Souakim is now absolutely secured against internal and external danger.

Cairo, Friday Night.

Telegraphic communication with Khartoum is free. General Gordon telegraphs twenty miles from Berber for arms and ammunition, supposed to be for the Berberines. There is no news from Tokar.

The special allowance of three shillings per diem to the army of occupation is stopped from the officers proceeding with the expedition for the relief of Tokar. The application of the Egyptian army officers for employment in the Soudan has been refused by the War Office at home, nor will the Egyptian regiments under orders for Upper Egypt be allowed to proceed.

The health of Sir E. Baring is improved, and he attends to business.

General Graham has just arrived from Upper Egypt.

The Gordon Highlanders will not proceed to Suez until to-morrow night, owing to a transport grounding in the Canal.

Alexandria, Friday Evening.

The expeditionary force for the relief of Tokar is leaving with the utmost despatch.

The ironclad Monarch arrived here to-day. The Téméraire, with Admiral Lord John Hay, is expected. The men here are in readiness to land, if necessary, to replace the troops leaving Alexandria.

Souakim, Feb. 15, 10 a.m.

A meeting of the principal chiefs of the neutral tribes has been held at Handouk Well, situated three hours' journey from this place, at which it was decided to request Osman Digna to respect their territory, otherwise they would march against him. Kassala has been invested by the rebels.

Aden, Feb. 15.

Her Majesty's Indian troopship Jumna has left here for Souakim after embarking tents for one thousand men.

Cairo, Feb. 15th

The British Government, replying to Sir Evelyn Wood, has declined to sanction his proposal for the co-operation of the Egyptian army in the expedition for the relief of Tokar, on the ground that it was expressly raised for the defence of Egypt proper, excluding the Soudan. The British Government expresses approval, however, of the despatch of an English officered battalion of the Egyptian army to Assouan, should that measure be decided upon.

The Black Watch, a portion of the Engineers, and the officers of the Intelligence Department, left Cairo for Suez this morning. The mounted infantry will start to-night and the Gordon Highlanders and the Rifles tomorrow morning. The Camel Corps will follow to-morrow night and the cavalry on Sunday morning. The last transport will leave Suez on Monday morning with Major-General Graham.

Alexandria, Feb. 15th

H.M. ironclad Monarch has arrived here from Port Said. H.M ironclad Temeraire is expected on Sunday next, and further arrivals from the Mediterranean squadron are also shortly expected. Major Wodehouse, of the Egyptian army, arrived here to-day from Cyprus in charge of a train of mules and ponies, and left again immediately for Souakim.

Berlin, Feb. 15th

The semi-official *North German Gazette* to-day, in an article upon the affairs of Egypt, dissents from the view lately expressed by the Berlin *Post*, that the recent events in the Soudan and their consequences were foreseen, and even deliberately promoted by the English Government. The *Gazette* expresses the conviction that they were quite unforeseen, and goes on to say: "It seems unjust to reproach the British Government with having observed how things were moving, and with having then profited by events for purpose of imposing on themselves the task of subjugating various questionable provinces by force of arms in the interest of the general civilization. The more correct view to take is rather that the English Government find themselves in a very intelligible embarrassment in face of their Egyptian difficulties, and would be pleased enough to be relieved from the necessity of warlike action."

London, 12th—Last night the Government had a defeat in the Lower House which does not, however, necessitate their resignation, as it was not on a true Cabinet question, but nevertheless compromises Mr. Gladstone's position in Parliament. It occurred as follows:—Mr. Bradlaugh appeared in the House last night and intimated that he was going to take the oath. The Speaker told him to retire. Sir Stafford Northcote resolutely opposed that the said member should be allowed to take the oath. The Government opposed this motion, which was carried by 280 against 167. Sir Stafford Northcote then brought forward another motion, proposing that Mr. Bradlaugh should not be permitted to enter the House of Parliament unless he gave his word of honour that he was not going there with a view of disturbing the Parliamentary debates. This was carried by 228 against 120.

The correspondent of the *Times* telegraphing from Suakim on the 12th inst., says:—The news of the fall of Sinkat, previously telegraphed, is confirmed. On Friday last the rebels sent emissaries to Tewfik Bey demanding the surrender of the fort, but the soldiers reviled them. Tewfik then burnt everything he could not take with him, destroying the cannon and then made a sortie, the troops marching first, the women and children following them. The men were all killed by the rebels—the Ambabs attacking on the right, and the Bishareen Arabs on the left side—except six, who were taken prisoners, with all the women and children. This news created a great disturbance in Suakim. Mr. Alfred Brewster, Customs Director, has been appointed Sub-Governor of Suakim.

From Cairo, it is said, that General Gordon telegraphs from Berber as follows:—

"Stewart and I are all right. Do not bother about us. Do not want Bedouins at Korosko; take them away; do what you like with them. The people are coming in on all sides with enthusiasm. I hope soon the Soudan will be perfectly tranquil. Send me the camels for transport from Abu Hamat to Korosko. These are for the families of the people slain in the Kordofan campaign."

The *St. James's Gazette* says that the drafts of the Chatham division of Royal Marines, under orders for Egypt, these being about 200, left by special train on the morning of the 9th for Portsmouth, for embarkation with the drafts for other divisions. An immense concourse of spectators assembled and cheered the men loudly. Before leaving they were inspected by General the Honorable R. Monck and Colonel Bland Hunt. The party consisted almost entirely of men who went through the last campaign. The Press Association learns that the Government estimate that Admiral Hewett will have at his command in a week's time about 3,000 bluejackets and Royal Marines, and that a week later this number will have been augmented by 1,000.

Fears have been expressed that Mr. O' Kelly, the member for Roscommon who has gone out to Egypt as a newspaper correspondent, has fallen a victim to the Mahdi in the Soudan. A letter (the Dublin correspondent of the *St. James's Gazette* says) has been received by a friend in Ireland from Mr. O' Kelly dated the 3rd of January, from Assiout, Upper Egypt, and bearing the postmark of January 5. Mr. O' Kelly wrote in a gloomy tone, and expressed himself fully conscious of the difficulty and danger of the post he had undertaken.

We are informed, says the *Globe*, that Colonel Whitehead shot himself in bed at 43, Pall mall, on the morning of the 9th inst.

PARIS LETTER.

(*From our own Correspondent*).

February 6th.

M. Clemenceau, leader of the Radicals, has obtained his commission of 44 members, a grand braad new Committee of the whole House, to inquire into the condition of the industrial crisis. The Government was defeated on the motion, and very properly so, for the Commission by calling for papers and persons, could collect a mass of useful information, and officially record the complaints and the remedies of the parties interested. However, it is a notorious fact, that since 1848 all such Commissions have ended in sterility, because the Committees considered themselves to be special Parliaments a sort of "imperium in imperio," for discussing all utopias, all theories, and all systems.

The Commission just appointed could render real services, not only to France, but to other nations, if it simply gathered, classed and centralised, all the information possible, on industry, capital and labor, at present so much out of joint; if it made in a word, the statistics of facts and opinions. The economic problem is redoubtab e, owing to the radical transformation effected in commerce and industry by contemporary science. In France, the industrial crisis is localised to half a dozen large cities, because the industries are contracted in these places, hence the intention to open factories in the provinces. All the wide-awake 'industriels' are doing so. It has been said,

" How small, of all that human hearts endure
That part which laws or Kings can cause or cure."

The French legislature can do a small part, by voting laws, regulating plans of life assurances for work-men; and annuities for their old age; accidental insurances; trades unions; hours of work in mines, arbitration courts to compromise disputes between masters and men; and a thorough re-casting of the system of taxation. The state cannot generalise into a law the innovation so highly approved of by numerous employers, that of making the employed participants in their profits. But as the state itself is a great contractor, a vast employer of labor, directly or indirectly, it could arrange to try the experiment, and insist that its contractors essay the plan. By thus calling all hands to the work, the antagonism between capital and labor would be minimised.

Discussing international rates of wages, so as to bring about a kind of métric scale of salaries, is pure illusion. There are factors and elements in the problem that cannot be seized The cheaper the labor, the cheaper an article can be produced; a century before Adam Smith Samuel Butler laid down the principle of political economy in the distich;—

" For what is worth in anything
But so much money as 't will bring?"

The cost of the necessaries of life is not the sole regulator of the rate of wages. In France the average weekly earning of a workman, is 21 fr. and cost of his food 10 fr.; in England, the respective figures are, 41 and 13 fr.; in Germany 23 and 11 fr.; in the United States 60 and 14 fr.; and in Italy 16 and 10 francs.

Mademoiselle Auclerc proposes a remedy: she appeals to the inhabitants to elect women to govern France, since the male sex have signally failed to do so. And note the mean revenge taken upon her; the government bailiff, a "he critter," has again sold off her penates, since she declined to pay her taxes; pending the arrival of ladies to power. As usual, the Women's rights club bought in the penates.

Nothing from Tonkin, save that a newspaper has been established at Hué, and that the more the Annamites know of the French, the more they are charmed with them. Orientals have an acquired love for Westerns Bac-Ninh remains still the Rubicon between France and China. Many think that Admiral Courbet ought to have cracked that nut after Son-Tay. Note has been taken of the wisdom of the Marquis Tseng, who avows, that there is a time for everything under the sun; a time to keep silence, and a time to speak. Ecclesiastes can thus teach him sagacity as well as Confucius.

A terrible fire has just taken place in the rue Chemin-Vert, and of houses occupied by workmen and their families. One poor woman in the throes of child-birth, jumped from a third story and was killed. Close by was the store where three theatres kept their scenes, all consumed. A man to ensure his being drowned, revived the practice of Jeanne de Bourgogne and the Tour de Nesle; he fastened himself in a sack, and rolled into the Seine The death-rate at Monte Carlo, due to gambling, is one suicide per day. Every one would be glad to see France "protect" that principality. and so suppress the shame of Europe. A prisoner in the dock feeling his amour-propre hurt by a question from the judge, flung his cap at Rhadamanthus.

An "English Baronet. Sir Van de Sheeter, is wanted by the French police. A monsieur made his acquaintance at Nice; on arriving at Paris. "Sir Sheeter," was invited to dine with his friend; left alone in a room, he opened all the drawers, filled his pockets with bank-notes and jewellery, and decamped, without apologising for keeping the dinner waiting.

The latest fashion: two mendicants have been arrested in one of the suburbs; they were on horseback; that's a common practice in Spain with sturdy vagrants—the horse is a double pity. The Prince de Monaco objects to his castle being styled an "irregular" parallelogram; that's criticism, and such is prohibited in his realm. A lady dentist advertises, that she hires out sets of false teeth for dinner and supper parties. A reporter demands a loan of 2,000 fr.; he will allow five per cent interest; security, his "eternal gratitude."

EDITOR'S TABLE.

The Cotopaxi brings European news to 16th. Nothing is spoken of in England but the Egyptian question and its horrors, which surpass those of Bulgaria. The fall of Sinkat was horrible. There were only 600 men in the garrison, commanded by Tewfik Pacha, a plucky fellow that would do honour to any army. When the men were reduced to eat roots and leaves he paraded them, told them the hour had come to do or die, had their pouches filled with ammunition, the guns spiked and the arsenals blown up, and out they sallied. The Arabs fell on them in a cloud, but, formed in square, they kept them at bay for hours, till, at last, they were overwhelmed by a desperate charge on the four faces of the square at once. Every man of the 600 was butchered. Then the Arabs broke into the town and killed every man, woman and child in it excepting the Cadi (Mahdi's creature), four sick men and thirty women. The unfortunate town had held out for three months, hoping that the British would come to save it. Feeling in England runs very high, and there is already talk of Mr. Chamberlain and the Radical party coming into power in case the Gladstonian coach be upset.

The Chief of Police has written an extremely long note to the Minister of the Interior, asking for instructions as to what to do in the Lottery muddle. Mr. Paz says that the Lord Mayor wants the police to break into the agencies to put a stop to the sale of unauthorised Lottery tickets; the newspapers want something else, the public some other thing, but what they want is all illegal, and he will do nothing without the orders of the Minister. Quite right. This Lottery muddle is very complicated. The best way is for the Capital to have more frequent drawings, and more favourable terms. (In the Montevidean 50,000 pats Lottery to-day the prizes are 1 in 10, whereas the Capital only gives 1 in 12) and then the other Lotteries would die a natural death. Gambling is one of those things that can only be dealt with with its own weapons. Legislation has never been able to cope with it successfully in any country, nor ever will.

The republic of Andorra, about which France and Spain are squabbling, is not only the oldest Republic, but the oldest State in Europe. Its present organization dates from the end of the eighth century, when Charlemagne in his expedition against the Moors, conferred the privileges of an independent government on the inhabitants of the Andorra Valley, midway between France and Spain, for their fidelity and devotion in conducting him through the passes of the Pyrenees. One of its two chief officers is named by the French Government, another by the Bishop of Urgel, in Spain; and it is in connection with the Bishop's nomination that the difficulty has arisen which threatens to bring about a crisis in the affairs of the microscopic republic.

A hail storm in Mendoza last week destroyed 100,000 pats worth of grapes, and the wine crop of the province will be short this year.

£50,000 for a broken heart! What do you say to that, ladies? Miss Fortescue, the actress, jilted by Lord Garmoyle, wants this pot of money for the loss of her heart and hic soronet:—

"The Press Association says:—In reference to the action for breach of promise of marriage brought by Miss Fortescue—late of the Savoy Theatre—against Lord Garmoyle, eldest son of Lord Cairns, we understand that efforts are still being made to settle the matter out of court. There is, however, little probability that an arrangement will be come to, the plaintiff feeling that, as her acquaintanceship with the defendant has been freely discussed both in society and in the public press, she has no alternative but to bring the matter before a court of justice, so that similar publicity may be given to the circumstances attending the severing of the connection. The statement of the plaintiff's claim has not yet been put in, but we have reason to believe that the damages will, in all probability, be laid at £50,000. It will be urged that no less a sum than this will compensate Miss Fortescue for the loss of position in society, to which she would have been entitled as the wife of a Peer, and in anticipation of which she retired from the stage. It is stated that the alleged engagement was broken off at the wish of Lord and Lady Cairns, through whose lawyers the negotiations for a compromise, up to the present unsuccessful, have been conducted."

Our colleagues, in reporting the Conciteros' ball on Sunday night make use of the stock phrase "reinó el mayor orden y animacion." Why not? Confiteros can have averagely good manners as well as other free and enlightened citizens of a republic. We often laugh at seeing that "el mayor orden" was observsd at a swell Club, or private ball, as if a free fight would have been nothing very extraordinary. It is a slip of the pen no doubt, but one calculated to provoke a smile.

Some use is being made of our convicts at last. In addition to the bad lot sent to Tierra del Fuego, thirty more have been told off for work in the Chaco. It is to be hoped the rascals will not contrive to escape.

There is sad news from Rocha, B.O., where the editor of the local paper, *La Libertad*, got a most unmerciful hiding last week from a policeman. With tears in our eyes we report this outrage on a brother of the Pen. Nothing is sacred for a sapper or a policeman—not even an editor.

The Lord Mayor has proposed to the Corporation to honour the Italian poet Amicis, when he arrives here, by paying his hotel bill at the La Paix. This is a most original way of doing honour to a visitor, and we highly approve of it. Poets are never burdened with a superfluity of cash, and we suppose Mr. Amicis is no exception to the rule.

The manager, secretary, and valuator of the Government Pawn Shop in San Nicolas are in boiling water for a tremendous swindle, by putting too high a value on "tickers, chains, old boots, pianos, etc. Millions gone.

Try and win a prize in a Lottery ladies. In Servia lately a mature maid, as ugly as sin, won the big prize in the Lottery, and in two days she had requests for loans to the tune of 540,000 francs, and 92 offers of marriage.

The empresario of the Italian dramatic company at Mercedes has 'mizzled,' and the wail of woe in the town is a caution, as he owed to everybody, right, left, centre, and down to the ground.

The presents to Mrs. Videla Dorna (neé Monasterio) who was married on Monday night, fill a whole column of the *Nacional*, and are of great value. The jewellers are making collossal fortunes with all the High Life weddings going on.

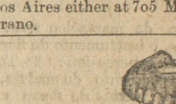

Our friends the Noodles will find splendid mutton news in another column. The Campana consignment of River Plate mutton has carried all before it in London.

Friend *Diario* we want our exchange of your invaluable paper a trifle earlier than 4 p.m. Please see to this and oblige yours truly. If you dont, we wont send you the *Standard* till 1 p.m. and then where are you?

"LA PATRIA"

Strength and Fragrance

Clean unbroken leaf, free from dust and mixture

Guaranteed always the same

Because we contract year by year for our exclusive account the produce of the same gardens in CHINA.

For many years the principal dealers both in town and camp, have sold none but the LA PATRIA brand, an eloquent proof of the satisfaction it gives to their customers. The annoyance and inconvenience which they formally suffered, when they bought other teas (sometimes of good quality and sometimes totally useless) is thus done away with.

A package of "PATRIA" Tea although it is sold for 48 lbs contains 50 lbs. net of tea.

Protection against Fraud

See that the box has not been opened. If the lead has been cut it is an almost certain proof that it does not contain the genuine article. Those who fill with inferior tea the empty boxes bearing our brands, generally do it at the bottom, leaving the lid and top lead intact, so as the more readily to deceive purchasers.

Ask for PATRIA tea and see that you get the genuine article.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

ON 'CHANGE.

March 11th, 1884

Cedulas E	87⅞
Cedulas F	84
National Bank Shares	126⅝
National Bonds 1881	75½

There was a better feeling on 'Change and hence a better market for stocks; the good news current had various features. First, that the loans would certainly be arranged in a few days, and second, that a loan for three millions patacons had been arranged on Cedulas, but whether this loan is a home or foreign loan none of the brokers could say. We merely give the news to our readers as it was current in the hall, without in the least guaranteeing it. Cedulas, on the strength of the story, held up a little better than yesterday, and National Bank Shares walked straight up to 126⅝, which means sunshine for a large crowd of operators.

We call attention to one remarkable market feature, and that is, that although the 10 o/o call on the new National Bank Shares is now due and being paid-up since the 5th instant; the boletos or certificados are not thrown on the market, and are much less offered now than a month ago. Many parties thought that the payment of the new call would make holders sell out. Such, however, has not proved the case, and this goes to show how well this scrip is held, and what a splendid investing stock it is. These certificados have now 30 o/o paid on them, and yet they cannot be bought at the same premium as when they had but 20 o/o paid on them. Three other calls of 10 o/o will be made this year on this stock, which will make 60 o/o paid-up, and next year the remaining 40 o/o will be called, when the stock will be fully paid-up and the new shares then rank in the same category as the old, which promises to be a very splendid business for the holders.

At the Provincial Bank yesterday the discounts were very trifling, and we hear there was a very warm debate which some think will lead to further resignations. The Lamothe failure and fraud is still a subject of discussion. The discounts only amounted to 100,000 m/n.

The following were the sales at the ring during official hours:—
Cedulas—
For cash E 9,000 at 87⅞
For March 31st E 215,000 at 88-⅛
For April 30th E (d) 10,000 at 88⅝
For cash F 33,400 at 84-⅛-84
Sales, 277,400
National Bank Shares—
For cash 100 at 125½
For March 31st 1,800 at 126-⅛-¼-⅜
For April 30th 600 at 127¾-128-127⅞
Sales, 2,500
National Bonds, 1881, 5 o/o—
For cash 1,000 at 75½

Letters from London bring the splendid news that the Campana mutton sells like bread and cheese, which is good news for this country. In fact from the tenor of our letters, there can be no doubt the problem is solved, and all the mutton we can send to England will sell like hot cakes at 4½ per lb. Our correspondent says that Mr. Parish was very poorly, but was preparing to start for the Plate on the 25th Feb. Our London correspondent sends us a full account of the River Plate mutton banquet, which we hold for to-morrow; nothing can rival the success of the mutton, and if we sent all the sheep in the Plate to London it would be but like a drop of water in the ocean.

A leading English merchant favoured us to-day with a telegram from London yesterday's date, with news of a more active wheat market.

It will be seen by the balance sheet of the Mortgage Bank that the issue of Cedulas F during last month only amounted to 580,000, whilst the deposits of Cedulas in the bank show an increase of close on 100,000 Cedulas.

At afterhours very little business done Cedulas closed at 88½ buyers and National Bank Shares at 126⅝ and buyers at 126½. The least good news from London about the Loans will put National Bank Shares to 130.

Some extraordinary scandal about the Monte de Piedad branch in San Nicolas, is the talk of 'Change. Drafts came down so fast on the Board here, that suspicion was aroused. The result was, that the whole Board of Management, Manager, &c., all turned out.

A row between a ship broker and some lightermen was discussed in the afternoon. All parties walked off to the Policia and placed on the berth.

Freights rule the same, 15 for bales and 20 for grain. The shipbrokers say it is wondrous where all the produce comes from; they never before knew such a season.

Exchange was done only at the banks today for customers. No bills passed in open market as there is no steamer until the 15th. The French mail steamer is expected in to-night at Montevideo.

We hear, that so far from starting a bank, as reported yesterday, Mr. Weldon will return immediately to Europe. Mr. Thurburn, of Rosario will, we hear, take charge of the bank in Montevideo, and Mr. McCrindle goes up to take charge in Rosario.

Mr. Beckhaus' furniture will be sold at auction on the 18th and 19th. He leaves for Europe, and retires from business. Mr. E. Casey has rented the magnificent house in Calle Piedad, which Mr. Beckhaus gives up; it is, without exception, one of the finest houses in the city.

Circulars were given round to-day announcing the new firm of Furtado and Butler, consignees, etc.

Mr Wagenknecht has arrived up from Montevideo. He will take charge of the house of Mallman & Co. here Mr. Maltmann leaves for Europe. Mr. Wagenknecht has rented Mr Pfeiffer's splendid mansion at Caballito.

The auction of the sheep and cattle on Mr. H. Torroba's estancia did not give high prices. The mestiza cattle sold at 187 and the Lincoln sheep from 35 to 28.

News from Havannah is better, and beef is up to 20½, which is good news for saladeristas.

Mr. A. Roca has refused an offer of 500,000 pats. for his Trenquelauquen lands. He asks a cool million.

The arrival of emigrants is strong as ever; in the two steamers just in, the following are reported:—

Bearne	636
Perseo	690
	1,326

Our evening colleague, the *Nacional*, the brokers say, is for sale. A well-known Italian speculator, they say, is thinking of buying it. Sic transit &c.

With profound regret we announce the death of Mr. Glasser, the talented director of the Tucuman work shops. We hope the assassin will be brought to justice

The prisoner Schneider was taken from the Penitentiary and shipped to Belgium in the steamer Rosario, from thence he goes to Germany. It seems he is well-known in Montevideo, where he had a shop in Calle 25 de Agosto.

Two passengers died on board Cotopaxi and one on board Perseo on voyage out.

Mr Gowland, the popular auctioneer, is now selling some splendid English hats very cheap, 50 % each. We one bought a hat at auction in Montevideo for 2 m/n and it held for 13 years.

In Balcarce, 24,000,000 sq. vs., 27,555 m/n

In Santa Fé, 2,999,824 sq. mts., 1,000 m/n

The Pomona arrived in Bahia Blanca yesterday at 9.50 a.m. all well.

In a telegram received yesterday from Concordia it was stated that the lighter Carnaval, which grounded on Saturday in the Rio Uruguay near Corralitos, was got off yesterday with the aid of a steamer, saving most of her cargo.

The Subprefect of Colon communicated to the Prefectura Maritima that the Rio Uruguay was rising.

The Pollux, a new steamer of the Platense Line, anchored here yesterday morning and was afterwards towed to San Fernando by the tug Kate, to have some slight damages repaired which she sustained coming out.

A telegram from Genoa to-day announces the departure of the Nord America for this port.

The Europa of the Veloce Line is expected in Montevideo to-day.

A new line of steamers under the name Transportes Fluviales has just been formed to navigate the Parana and Paraguay. The Centaur, which will be the first steamer to arrive and which will inaugurate the line will be here next June. The Venus, which is being constructed in the same dock yards, will soon follow her. Both the steamers are 500 tons register and got up regardless of expense.

The French line of steamers, the Chargeurs Reunis, have determined on establishing from the 1st April a service of 3 boats per month between here and Havre. They will leave here on the 10th, 20th and 30th; the 10th and 20th will be for passengers and cargo, and the 30th for passengers only.

The Loire, which has replaced the National packet Villarino, has returned from Santa Cruz to which port she made her first trip. She is in every way fit for the Southern coast, which as our readers know, is one of the worst for navigation and especially so for passengers, but as she is a very large vessel and a thoroughly good seaboat, passengers will now be better off than they were when they had to avail themselves of the makeshifts provided for them by second rate boats. We have to compliment her officers for the skilful manner in which they managed an ocean steamer in such dangerous waters and above all for venturing to enter such a port as Patagones for the first time without a pilot. She will leave her on the 16th inst. with cargo, mail and passengers for all the Southern ports, and we do not doubt for one moment that her success will be as great this voyage as on her last. We must congratulate Mr. Ventura Oreiro on his enterprising and pro bono publicos scheme, and if, as he proposes, he should supplement the route with two more steamers like the Loire, we shall not hesitate for one moment in calling him the most enterprising Spaniard in the country, for putting us so frequently in communication with some of the most distant parts of our vast territory.

Remarks—
The freight market continued firm and with increased demand for tonnage at rates foreseen in my last report.
Wheat being the leading article and coming in more abundantly, naturally causes more inquiry for tonnage and there prevailing at the moment a scarcity of suitable tonnage I expect a further rise in freights.
Steamers of the regular lines have raised their freights to 25s and 10 o/o for Liverpool, and 25s in full for Antwerp, while outsiders accept at lower rates.
Hay—The demand alluded to in my last has been met with and through the above charters shippers will now be engaged for a time.
For our other export articles there has been little demand and freights have remained unaltered.

EDITOR'S TABLE

(Continued from 1st page)

The Provincial "black robe" gentlemen have got a month's respite. It appears that the shanty that is to serve as a Palais de Justice at La Plata can not be ready till the 31st of April, and Bench and Bar rejoice exceedingly thereat. While there is life there is hope; something else may turn up in their favour by the 31st April. For the Bank Directors, however, there is no hope. Go they must. "Se soumettre ou se demettre." Poor men!

The great trotting match, that was arranged to be run at San Nicolas on Suuday, did not come off. The venue is changed to the Lanus course.

The Municipality passed a resolution on Monday night, prohibiting calves being pulled about the streets tied to their mothers' tails. It would have been better had the whole system of driving cows through the streets and torturing them by milking them every five minutes been suppressed. The thing should not be allowed in a civilized city.

We are always perpetrating some "disparate" here. On Monday, at the funeral service for the late Senator Gomez, the troops paraded to do the honours absolutely fired volleys in Calle Artes, with their rifles pointed *at the shop windows*, instead of in the air. One man, it is said, got a smack in the eye from a bit of cartridge. The excitement in the neighbourhood was prodigious. The shopkeepers put up their shutters, women screamed, children yelled with terror, and it was an hour before things settled down. When the troops did march away, their officers formed them across the whole street, even on the pathways, and the public had to stampede out of their way. The military element is too obtrusive here in a country nominally republican.

The plan of the Opera House to be built in La Plata was sent round yesterday. It is certainly superb, but such a building will be quite out of place in the midst of the shanties, sheebangs and wooden houses of the Provincial Capital. It really looks like a joke to propose to erect such a building in such a place.

The demand for labour all over the Interior is greater than ever. A batch of new arrivals, sent to Santiago last week, obtained employment on their own terms before they had gone half way to their destination.

The change in the moon yesterday was like more coals on a fire, and the thermom. was higher than ever. The market is swamped with beautiful second-hand umbrellas, selling for half nothing. They are good buying, as we are certain to have a terribly wet winter, after the prolonged summer.

A young man should always want to see himself as others see him, and in doing so he will find that his ears never seem so big as they do in spring time after he has had his hair cut for warm weather.

Our newsy colleague the *Patria Argentina* gives a chronological review of the various periodicals, papers, etc, that since 1801 to the present have lived and died in this city. The oldest existing paper is the *Nacional*, founded in 1852, and then comes the *Nacion* in 1860. The *Standard* appears under the head 1868, but is nearly 7 years older, and should come after the above two. The *Prensa* counts from 1869 and the *Patria Argentina* itself from 1879. The mortality in the newspaper line is something awful, and the account of our defunct colleagues occupies two whole columns. R.I.P.

"Yes," said Henderson, "I've got quite an ear for music." "You have quite an ear, sure enough," said Fogg, "but I wasn't sure it was for music; I didn't know but what it was intended for a windmill."

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.
CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.
From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. T. J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."
Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
CAUTION—None genuine without the words 'Dr J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
